

Graduate Student Studying at IBT Wins Award

February 27, 2002

Chengyu Liu, a graduate student studying at the Institute of Biosciences and Technology, is the first recipient of the Harry S. and Isabel C. Cameron Award. Liu is a student of IBT faculty member [Dr. James F. Martin](#).

Offered for the first time in 2001-2002, this scholarship provides \$5,000 to an exceptional graduate student working in research fields relating to Alzheimer's or cardiovascular disease and who is enrolled in the Graduate School of Biomedical Sciences (GSBS) of the University of Texas at Houston Medical School. Although Liu is enrolled at GSBS, he studies with Martin as his supervisory professor at IBT under an agreement between the two health science centers of the Texas A&M University System and the University of Texas System. The \$5,000 award is matched by GSBS, giving a total of \$10,000 in stipend support.

Shown in the photo above are (left to right) Chengyu Liu, Isabel C. Cameron, Dr. James F. Martin, and Dr. George Stancel of UT Houston's GSBS.
