

## Molecular Biologist Joins IBT Faculty

December 1, 1996

James F. Martin, M.D., Ph.D., has joined the faculty of Texas A&M University's Institute of Biosciences and Technology. He will be an assistant professor in the institute's Center for Cancer Biology and Nutrition.

A magna cum laude graduate of Fordham University, he earned his M.D. at the University of Texas-Houston Medical School and his Ph.D. at the University of Texas-Houston's Graduate School of Biomedical Science. Since 1991, Dr. Martin was a postdoctoral fellow in the Department of Biochemistry and Molecular Biology at the University of Texas M.D. Anderson Cancer Center. His research focuses on the molecular mechanisms regulating facial and limb morphogenesis.
