you’d love the opportunity to participate in ground-breaking research as an undergraduate, or you’re a digital artist with dreams of working for a major animation studio ... whether you’ve wanted to be a veterinarian since you got your first dog, or childhood building blocks inspired you to be an architect, you can make it happen at Texas A&M.

You can also pitch a start-up company, practice your leadership skills in a student-led organization, aim for a graduate degree or learn through service in a village in Uruguay or in a Texas high school.

Whatever your dream, you can pursue it as an Aggie. You’ll have access to all the resources of a world-class research university at your fingertips, but we’ll still be there to help you find your way. That’s what Aggies do.

In fact, from the moment you arrive in Aggieland, you’ll feel it ... the friendly, welcoming environment ... the camaraderie of our students, faculty and staff ... the overwhelming sense that we are all part of a proud history, an exciting future and an inclusive family — the Aggie Family. That is what’s known as Aggie Spirit, and when you begin to feel it, that’s when you’ll know you’re an Aggie.

AT TEXAS A&M we bring world leaders and thinkers to campus to stimulate your mind and stir your soul. We prepare you to think critically, solve problems efficiently, collaborate effectively and practice ethical leadership in a diverse and global society. And we send our Aggie leaders out into the world prepared to take on the challenges of tomorrow ... with ideas, integrity and an unmatched desire to serve the greater good.

WHERE YOU’LL CATCH THE AGGIE SPIRIT

MEMORIAL STUDENT CENTER (MSC)
Known as the “living room of Texas A&M,” this student union features restaurants and shops, meeting rooms, spirited décor, and lounges and entertainment areas that will make your time out of class relaxing and enjoyable.

UNIVERSITY ART COLLECTIONS
You’ll come across unique and inspiring works of art all across campus, or view the collections at the MSC’s two galleries: J. Wayne Stark Galleries and Forsyth Galleries.

KYLE FIELD
You’ll be surrounded by the Aggie Spirit at Kyle Field, the home of the 12th Man and the Fightin’ Texas Aggie football team. Kyle Field is poised to take its place among the largest college football stadiums in the nation with a capacity of 102,512. Aggies are known as the 12th Man because they stand for the duration of the game to show their willingness to step in and play for the team if needed.
ACADEMIC PLAZA

Academic Plaza features a statue of Lawrence Sullivan Ross, or “Sully.” Aggies place pennies at his feet hoping for good luck before an exam. He stands before the Academic Building, completed in 1914, with its famed dome, a replica of the Liberty Bell and a stunning mosaic-tile rendition of the university seal. And be sure to take note of The Century Tree, a massive and beautiful live oak that is the site of countless marriage proposals.

OLSEN FIELD AT BLUE BELL PARK

The Aggie baseball stadium has a nostalgic design with contemporary amenities. The games are packed with unique and fun traditions designed to further the Aggies’ home-field advantage and provide a one-of-a-kind environment rich with Aggie Spirit.

REED ARENA

With a capacity of more than 12,900, Reed Arena is the site for basketball games, graduation ceremonies, freshman convocation and more. Built in 1998, the arena has hosted a variety of famous performers and can be rented out for events.

BONFIRE MEMORIAL

On Nov. 18, 1999, Aggies faced unimaginable tragedy when during the building of the Aggie Bonfire, the stack of logs collapsed killing 12 students. Although the tradition of a campus Bonfire ended, our devotion to honoring those fallen students will endure. You’ll see that devotion embodied in stone at the Bonfire Memorial, a place for respect, remembrance and Aggie Spirit.

CLAYTON WILLIAMS, JR. ALUMNI CENTER

Once you become an Aggie, you’re part of the Aggie family for life. The Alumni Center, home of The Association of Former Students, has interactive exhibits that bring the Aggie Spirit to life. The Haynes Ring Plaza features a 12-foot high bronze replica of the Aggie Ring, a symbol of the Aggie Network.
ONLY 104 FEET FROM CAMPUS

YOUR BEST HOUSING OPTION

PEACE OF MIND
Community assistants on each floor, resident life program, roommate matching, study rooms & individual leases – you’re only responsible for your student’s lease & not their roommates’

CONVENIENCE
On-site, student-focused retail including a full-service CVS (complete with groceries), Great Wraps & other favorites. Plus apartments include full kitchens & are fully furnished.

LOCATION, LOCATION, LOCATION
Only 104 steps to campus, College Station’s best location!

VALUE
No need to pay for an on-campus meal plan ($4,500) or parking pass ($275)

717 UNIVERSITY DRIVE, COLLEGE STATION, TEXAS 77840
The twin cities of Bryan-College Station have served as the adopted hometown for generations of Aggies. Both cities have grown exponentially just as Texas A&M has grown, and each is a welcoming, diverse and multi-ethnic community that continues to grow and thrive.

In Bryan-College Station, you’ll find a community rich in tradition and history, a place where you can enjoy all the amenities of a big city combined with a warm, friendly, small-town charm.

Bryan-College Station boasts more than 90 public parks, the 1,000-acre recreational Lake Bryan, and the Wolf Pen Creek Amphitheater for outdoor concerts and multi-cultural events. There are also several art galleries and a variety of museums, including the Brazos Valley African-American Museum, Children’s Museum and Natural History Museum, and the George Bush Presidential Library and Museum on the Texas A&M campus.

Many beautiful memorials are found at College Station’s Veterans Park, while the nearby Museum of the G.I. serves as a living history museum dedicated to America’s service men and women.

College Station has earned a reputation as one of the safest, most family-friendly places in Texas. In addition, it has a strong spiritual side with every major religion represented among more than 80 houses of worship.

Both College Station and Bryan offer shopping, nightlife and a wide variety of cuisine, including the Northgate Entertainment District, with its unique hangouts and eateries, walking distance from campus. And with Bryan’s Downtown District, featuring a thriving art and music scene, festivals and street fairs, the local community has something for everyone.

Bryan-College Station . . . a great place to visit and a great place to call home.

Bryan-College Station has received national recognition in a wide variety of economic categories since 2010, including:

- #3 in Nation for Best Place to Live (Kiplinger’s)
- #3 Great City for Raising Families (Kiplinger’s)
- #4 Best City for Military Retirement (USAA)
- #4 Great Place to Retire (USA Today)
- #5 Best Small City for Business & Careers (Forbes)
- #6 Most Affordable College Town (Simple Dollar)
- #10 Top College Town in America (Livability)
- #12 Best City for College Grads (Xfinity)

America’s Friendliest Small Town Finalist (Rand McNally & USA Today)
A great university stands on strong pillars.
Two Resort-Style Pools Including Volleyball, Water Basketball, Beach Front Entry & Tanning Pool • Theater/Lecture Hall for Saturday Night at the Movies or Special Event Lectures • Ultimate Full-Service Dining Center • Computer Lab with Workstations Loaded with the Latest Software & Free Print Outs • Cyber Lounge with Wireless Internet • Fitness Area with State-of-the-Art Equipment • Interactive Gaming Center with Wii, Xbox & PS3 • Study Area • Tanning Bed • Weekly Housekeeping • On A&M Shuttle Route • High-Speed Internet in Every Room • Financial Aid Friendly • Unlimited Meal Plan • Cable with HBO • Large Living Room • Telephone Service • Kitchenette • Resident Functions • Roommate Matching • Fully Furnished • No Deposit
From sandwich and coffee shops to all-you-can-eat buffets and fast food favorites, University Dining offers something for every taste. On and off-campus students can choose from a variety of cost-saving and convenient meal plans or pay as you go. Storied landmark Sbisa Dining Hall is located on the site of the original campus mess hall which was destroyed by fire in 1911. Sbisa is located at the end of the famed Military Walk and features a wide variety of options.

“LIVING AT THE HEART OF THE AGGIE EXPERIENCE”

ON-CAMPUS HOUSING

Texas A&M’s wide variety of living options and amenities will make you feel right at home. Living on campus is convenient and has proven advantages — especially for new students — including higher GPR’s, better retention and higher four-year graduation rates. And diversity is a priority at Texas A&M where our living communities are welcoming, inclusive and focused on student engagement, learning and development.

UNIVERSITY LIBRARIES

Being an Aggie means you’ve committed to lifelong learning and Texas A&M’s six libraries will help you on your journey. Librarians are available to assist you in gathering materials, and you can edit videos or produce podcasts, rent free movies, audiobooks and music, or simply find a quiet space to study.
**TRANSPORTATION**

Texas A&M has one of the nation’s largest campuses at over 5,200 acres, but getting around is not a problem thanks to our Aggie Spirit buses, a fleet of 80 university-owned buses that travel more than 1.5 million miles each year. If you’ve got just a few minutes between classes but a long way to go, our on-campus buses are the quickest and most efficient way to get there.

**SUSTAINABILITY**

Aggies understand the importance of protecting resources for future generations and our students, faculty and staff have taken enormous strides in the area of sustainability. You’ll find it easy to join this effort by using the recycling bins and water bottle refilling stations conveniently placed around campus. You can participate in environmental initiatives such as Campus Sustainability Day and Aggie Replant. Texas A&M has been nationally recognized for its water and energy conservation efforts.

**STUDENT RECREATION CENTER**

This 400,000-square-foot facility offers a Texas-sized variety of activities. Fitness-minded Aggies enjoy indoor and outdoor swimming, state-of-the-art fitness equipment, exercise classes, volleyball and basketball courts, an indoor track, a rock-climbing wall and much more.

**REC SPORTS**

If you love competing, you can get involved in one of our 34 Sports Clubs, playing for Texas A&M against clubs from other colleges. Every year more than 12,000 students participate in Rec Sports’ wide variety of intramural sports programs.

**CAMPUS SAFETY**

Texas A&M is known as one of the nation’s friendliest college campuses, but that doesn’t mean we don’t take your safety seriously. The Texas A&M University Police Department provides law enforcement and security services, and the Code Maroon emergency notification system will provide you with text, RSS, Twitter or email notifications in the event of a campus emergency. There are 145 emergency phones located throughout campus and members of the Corps of Cadets provide a free, 24-hour escort service.

CAMPUS ENGAGEMENT

FISH CAMP, AGGIE TRANSITION CAMPS AND GRAD CAMP

Fish Camp is the largest student-run extended orientation program in the nation. Transition Camps include T-Camp and Howdy Camp for transfers. Grad Camp is organized for graduate students. All orientation camps are designed to help you get to know our history and traditions, make lasting friendships and find your place in the Aggie family before classes even begin!

STUDENT GOVERNMENT ASSOCIATION (SGA)

SGA serves as the student voice on campus. More than 1,500 students in three branches work toward maintaining tradition, developing leaders and creating programs to enrich the quality of student life.

MSC PROGRAMS

Our student-led MSC programming committees sponsor live music, art exhibitions, films, plays and musicals, distinguished lecturers, cultural events, leadership and academic conferences, service projects, and international travel programs every year. One of our organizations, MSC OPAS, brings world-class entertainment and performers to Texas A&M and the community. Members of MSC OPAS participate in planning the season, raising money to support programming and helping young children experience the arts.

SORORITY AND FRATERNITY LIFE

Tens of thousands of Aggies have learned leadership skills through our fraternities and sororities. Because of our unique history and traditions, we are not just Greeks; we are Aggie Greeks!

THE CORPS OF CADETS

The Corps develops well-educated leaders of character who embody the values of honor, courage, integrity, discipline and selfless service, are academically successful, highly sought-after, and prepared for the global leadership challenges of the 21st century.

Academic excellence is the top priority of the Corps of Cadets. Three full-time Scholastic Performance Specialists as well as a cadre of staff and faculty members provide tailored academic advice and mentoring to all cadets.

Most cadet graduates pursue a career in the public and private sector. However, the Corps of Cadets consistently commissions more officers than any institution other than the service academies.

The Corps of Cadets is nationally known for producing young men and women of character who are fully prepared to lead in our communities, our state and our nation.

Selfless service is a core value at Texas A&M, and Aggies commit their time and dedication through service projects, fundraisers and other charitable efforts throughout the Bryan-College Station community. Each college encourages students to participate in service projects that promote holistic learning. From walking to fight cancer, reading and tutoring local elementary school children, and mentoring high school students to building houses for those in need, Aggies are committed to serving the local community and beyond.

THE BIG EVENT

The Big Event has grown to become the nation’s largest one-day, student-run service project. One Saturday every March, Aggies fan out through the local community, performing tasks ranging from painting to yard work to cleaning. This past spring, more than 22,000 students participated in The Big Event, completing over 2,500 jobs.

AGGIE HABITAT FOR HUMANITY

At our campus chapter of the national home-building charity organization, student volunteers join in the effort to provide housing for families in need and increase poverty awareness. From raising the first wall to handing over the keys, Aggies are involved in every step of the process.

REPLANT DAY

Headed by the Aggie Replant student organization, Replant Day is an annual fall event in which hundreds of Aggies unite to plant trees around the local community. In 2013, Replant expanded its service mission by planting thousands of pine seedlings in Bastrop State Park after it was decimated by wildfires. These efforts, in addition to maintaining beautiful trees all across campus, have helped Texas A&M become a “Tree Campus USA” honoree by the Arbor Day Foundation.

Texas A&M University isn’t just a college — it’s a family where each individual is valued. In the same way, Brazos Valley Schools Credit Union isn’t just a financial institution. We care about the communities we serve and are dedicated to your financial education, growth and security — throughout every stage of your life.

Like Texas A&M, BVSCU is a well-established community that helps further your goals — and we have strength in numbers.

YOU’RE A MEMBER OF OUR FAMILY.

Texas A&M University isn’t just a college — it’s a family where each individual is valued. In the same way, Brazos Valley Schools Credit Union isn’t just a financial institution. We care about the communities we serve and are dedicated to your financial education, growth and security — throughout every stage of your life.

YOU’RE A MEMBER OF OUR FAMILY.

Texas A&M University isn’t just a college — it’s a family where each individual is valued. In the same way, Brazos Valley Schools Credit Union isn’t just a financial institution. We care about the communities we serve and are dedicated to your financial education, growth and security — throughout every stage of your life.

YOU’RE A MEMBER OF OUR FAMILY.

Texas A&M University isn’t just a college — it’s a family where each individual is valued. In the same way, Brazos Valley Schools Credit Union isn’t just a financial institution. We care about the communities we serve and are dedicated to your financial education, growth and security — throughout every stage of your life.
At Texas A&M, we believe that diversity is a vital component of our culture of excellence. We are committed to providing a welcoming, inclusive and respectful environment for individuals from all areas on campus, affirming and encouraging individuals to take pride in their identity as part of the Aggie Family.

Texas A&M provides numerous opportunities to embrace diversity through a wide range of student, faculty and staff engagement, education and accountability efforts. Some specific programs and services include: Department of Multicultural Services, International Student Services and Disability Services.

**International Student Services**

We help our large international student population — more than 5,000 from 123 different countries — get acclimated to the university, but you can help, too. Get to know an international student while working together on a class project, as members of a student organization or at a sporting or cultural event on campus.

**Department of Multicultural Services**

We provide multiple support services for current and prospective students from underrepresented populations and offers diversity education programs that foster inclusive learning environments for all students. Your success will be promoted through academic support and the enhancement of life, leadership, advocacy and mentoring skills.

**Disability Services**

Disability Services facilitates appropriate accommodations to empower students to be self-advocates. Staff members interact and collaborate with students, faculty and staff to achieve equal access for students with disabilities.

**INTERNATIONAL LEARNING EXPERIENCE**

The university goal is for 90 percent of our students to have an international experience including study abroad, research, internship, or outreach and exchange. These high-impact experiences help develop empathy toward other cultures and viewpoints, and the cultural skills needed for engagement in a global society.
HISTORY & TRADITIONS

THE 12TH MAN

Aggies are known as the 12th Man because they remain standing throughout football games as a gesture of loyalty, support and readiness. The tradition started with E. King Gill, whose readiness to play in the 1922 Dixie Classic symbolized the unwavering willingness of Aggies to support their team. Texas A&M is known nationally as the Home of the 12th Man.

FIGHTIN’ TEXAS AGGIE BAND

This unit of the Corps of Cadets is the official marching band of Texas A&M and the largest precision military marching band in the world. The band is comprised of 400+ students who perform at all home football games and select away games. Since 1894 when it first began, the Aggie Band continues to thrill Aggie fans and visitors with its rousing performances.

THE AGGIE RING

“Once an Aggie, Always an Aggie.” Being part of the Aggie Network means you are connected to the university for life and The Association of Former Students will help you maintain and benefit from that connection. The most enduring symbol of the Aggie Network is the Aggie Ring; you’ll have an instant bond with anyone you meet who’s wearing one.
AGGIES DON’T CHEER, WE YELL!
The Aggie Spirit is more than just a feeling, it’s also a sound, the sound of thousands of Aggies yelling in unison to support the team. When the Yell Leaders take to the field and lead yells before the 12th Man, you’ll never hear anything quite like it. It’ll be one of the most exciting and memorable experiences of your college life.

MUSTER
Muster is the tradition that binds us with the spirit of thousands of Aggies who have gone before. An annual remembrance, Muster is observed in more than 400 places worldwide, with the largest ceremony here on campus. At night, when each name on the Roll Call for the Absent is read, a friend or family member answers “Here” and a candle is lit to symbolize that while those Aggies are not present in body, they will forever remain with us in Aggie Spirit.

SILVER TAPS
One of the oldest traditions is Silver Taps, the final tribute held on the first Tuesday of every month for any student enrolled at Texas A&M who passed away in the previous month. Aggies gather in silence; hymns chime from Albritton Bell Tower; the Ross Volunteers Firing Squad fires three volleys; buglers play “Silver Taps” three times ... all are part of this sacred tradition.

REVEILLE
As our official mascot, Reveille is the “First Lady of Aggieland.” She arrived on campus in 1931, after a group of cadets found a stray dog on the road. They took her back to campus and the next morning, when the bugler played “Reveille,” she started barking, revealing the cadets’ secret and coining her name.

Today’s Reveille IX is an American collie and a fully enrolled student. She lives on campus with Company E-2 and is the highest-ranking member of the Corps of Cadets. She goes everywhere with her sophomore handler including class, the Rec Center, and even on dates.
• Original wood bench from Kyle Field
• Turnstiles from Historic Olsen Field
• Re-purposed bleachers from G. Rollie White Coliseum
• Headboards & footboards previously in Corps dorms
• Women’s Basketball National Championship flooring
• General George Moore Malinta Tunnel Sign
• And more!
Live at the Heart of the Aggie Experience!

Living On Campus:
An environment where students can engage, challenge, and grow together, feel respected and supported, focus on their academic goals, and create positive, memorable experiences, and lifelong friendships.

reslife.tamu.edu
The Texas A&M Athletic Department is committed to building champions through academic achievement, athletic excellence and national recognition of our student-athletes, teams and programs. If you’re an elite student-athlete, this is an extraordinary opportunity to represent Texas A&M at the highest level of intercollegiate competition.

In our third year in the Southeastern Conference (SEC), Texas A&M once again proved to be formidable opponents across the board, with the majority of our teams making it into post-season play. This was also the 10th straight season that our athletic program finished in the top 25 in the Division I Learfield Sports Directors’ Cup rankings, based on overall performance by all sports teams — a testament to the success of our athletic programs and the hard work done by our student-athletes and coaches.

A few highlights from Texas A&M’s post-season include Aggie soccer earning the No. 1 seed in the NCAA Championships and their first-ever berth in the College Cup . . . men’s tennis reaching the Elite 8 and women’s swimming and diving winning its ninth straight top 10 finish. It was also the ninth straight season in NCAA Outdoor Track & Field that the women finished in the nation’s top four and the men in the top six. Aggie women’s golf reached the NCAAs, as did women’s basketball — for the 10th straight season and softball for the 14th straight season. For drama, nothing could top Aggie baseball’s super-regionals . . . and for making school history, Aggie football won its fourth straight bowl game.

The annual release of the Academic Progress Report (NCAA APR) demonstrated Texas A&M’s commitment to success in the classroom and graduation, as we surpassed the required NCAA standard in all sports. We also had 65 student-athletes graduate during May commencement, which speaks volumes about the program’s dedication to academic success.

WWW.DTIPROPERTIES.COM
Already regarded as one of the most dramatic and intimidating venues in college football, Kyle Field has undergone an ambitious and exciting transformation over the past two years. With an expanded capacity of 102,512, the $485 million renovation has made Kyle Field the finest college football stadium in the country, and the largest in the state as well as in the SEC.

You won’t want to miss experiencing Gameday in Aggieland. For many it begins with tailgating, a beloved tradition before Aggie football games. Former students enjoy reliving their experiences and celebrating with current students and fans, making for a huge Aggie family gathering.

At 6 a.m. on Gameday, the streets around Kyle are transformed into a festive, pedestrian-only Fan Zone, with food and beverage vendors and tons of engaging activities for the whole family.

One of the most stirring elements of Gameday is the Corps March-in. All 2,400+ members of the Corps of Cadets, in formation, step off one hour and 30 minutes before kickoff. With crowds of spectators on either side, they march from the Quad to the Fan Zone, entering the stadium one hour before kickoff.
As one of the world’s leading research institutions, Texas A&M is at the forefront in making significant contributions to scholarship and discovery, including that of science and technology.

Research conducted at Texas A&M represented annual expenditures of more than $820 million in fiscal year 2013, ranking Texas A&M in the top 20 of the National Science Foundation’s most recent Higher Education Research and Development survey. Recently reported fiscal year 2014 research expenditures exceed $854 million.

Through the successful solicitation of external contracts and grants, Texas A&M’s research creates new knowledge that provides basic, fundamental and applied contributions resulting, in many cases, in economic benefits to the state, nation and world.

The scope of the Texas A&M research enterprise covers the width and breadth of human knowledge and is conducted within 11 colleges and the Texas A&M Health Science Center; at its branch campuses in Galveston, Texas, and Doha, Qatar; and in collaboration with Texas A&M AgriLife Research, the Texas A&M Engineering Experiment Station, and the Texas A&M Transportation Institute.

Texas A&M’s faculty includes two Nobel laureates and numerous members and fellows of the National Academies. The university’s faculty-researchers collaborate with international partners through the university’s ongoing grant programs with universities in Brazil and with CONACYT-member universities and research centers in Mexico.

In addition, Texas A&M is one of only 62 members of the prestigious Association of American Universities — an association of leading public and private research universities in the United States and Canada. The university is also an active member of the Association of Public and Land-grant Universities, a research and policy organization dedicated to strengthening and advancing the work of public universities in the United States, Canada and Mexico.

HONORS AND UNDERGRADUATE RESEARCH

If you believe that the only worthwhile measure of achievement is the one you set for yourself, then consider Honors and Undergraduate Research. Opportunities with one of our world-class faculty are open to all students. That means you can experience the excitement of creating new knowledge, solving cutting-edge problems and developing new insights — life skills that are increasingly important in our world.

If you meet the requirements, you can experience enriched living, learning and development for Honors students; you can customize your curriculum by selecting Honors courses that best suit your interest en route to graduating with Honors.

High-profile programs for select students are available in all fields — University Scholars, UGR Ambassadors and Beckman Scholars.

There are leadership opportunities and National Fellowship guidance for all students in research, teaching, service and student programming.

Texas A&M holds the triple designation as a land-, sea- and space-grant university.

Texas A&M was named the winner of the first SEC Academic Collaboration Award.

Participation in the SECU, the conference’s academic initiative designed to promote scholarship, research and achievement among member institutions, gives Texas A&M faculty, staff and students opportunities to collaborate and enhance academic resources with other SEC schools. The university also participates in the SEC College Tour, which connects high academically performing students, parents and high school counselors who live outside of the Southeastern U.S. to SEC schools. In fact, Texas A&M was named the winner of the first SEC Academic Collaboration Award.

Undergraduate Studies offers a host of academic support services to help you and all Aggie students transition to the university classroom, connect with peers and faculty, experience an intellectually stimulating environment and prepare for a rewarding future.

SIGNATURE PROGRAMS

The Academic Success Center will help you enhance your academic performance. The center’s holistic and individualized approach offers guidance on time management, facilitates positive study skills and provides referrals to on-campus resources and services. The center also provides peer-to-peer academic assistance through supplemental instruction, tutoring and support services specifically designed to meet the needs of transfer students.

Honors And Undergraduate Research provides challenge and enrichment through honors courses, community activities, research programs and final projects that can be customized and individualized to enhance your personal, professional and intellectual development.

Professional School Advising supports students’ development into top applicants for dental, law, medical, pharmacy, physical therapy, physician assistant or veterinary school. Through workshops and individual advising, students explore their chosen profession, gain leadership experience and sharpen problem-solving skills.

The Public Policy Internship Program trains, places and supports students in policy-related internships in Washington, D.C. and Europe. Internships are offered every fall, spring and summer. Internships are also available in Austin when the Texas Legislature is in regular session.

Transition Academic Programs including Aggie Gateway to Success, FOCUS Learning Communities and Texas A&M/Blinn TEAM, helps students transition into Texas A&M through individual academic advising, peer mentoring and community support. Transition Academic Programs also facilitates internal transitions for undergraduates desiring to change major.

The University Writing Center will assist you with any type of writing or public speaking, from brainstorming to editing. Students get advice, online or in person, from trained peer consultants. Students can also visit the center’s website for information and tips on writing or public speaking.

CAREER CENTER

One of the largest campus recruiting programs in the nation, the Texas A&M University Career Center has received national and regional recognition for our many best practices.

More than 3,000 employers, including more than 80 percent of the Fortune 500 companies, recruit at Texas A&M each year. Our goal is to assist you every step of the way, from your freshman year through graduation, and after, as a Former Student. We will help you to prepare your résumé(s) and credentials, develop your interviewing skills, understand salary expectations, research potential employers and create professional networks. Our Career Resources Library contains job listings, employer profiles and information about a wide variety of careers. The Career Center can be found online at HireAggies.com and is located in Suite 209 of the John J. Koldus Building. You can also find the Career Center on Facebook, Twitter and YouTube.

Undergraduate Studies | 41
The Office of Graduate and Professional Studies (OGAPS) is a global leader in graduate education. Through exceptional service and commitment to the highest standards, OGAPS advocates for graduate education at Texas A&M and throughout Texas. OGAPS is committed to a diverse campus climate, support and enhancement of the graduate experience and the development of all students as global citizens.

Texas A&M offers 101 doctoral programs and 151 master’s programs, many of which have attained top rankings in national surveys and recognition for quality by the National Research Council (NRC).

Student Organizations
Graduate and professional students have the opportunity to participate in a number of student organizations such as Grad Camp, Graduates and Professional Student Programs, Black Graduate Students’ Association, Hispanic/Latino Graduate Student Association, Indian Graduate Students Organization and departmental graduate associations, among others.

Career and Professional Development
The Office of Graduate and Professional Studies (OGAPS) facilitates several professional development opportunities for students including the campus-wide G.R.A.D. Aggies program. This program aims to better prepare grad students for professional life after graduate school and is a collaborative effort of several non-academic university offices.

Additionally, the CIRTL@TAMU program provides professional development opportunities in teaching for STEM doctoral and post-doctoral scholars. Participant benefits include:

- Increased teaching efficiency throughout their careers
- A competitive advantage for faculty positions and a head start as junior faculty members.

Texas A&M University System Alliance for Graduate Education and the Professoriate (E&AGEP) provides support and experiences to increase the number of underrepresented minorities who complete STEM doctoral degrees and continue on to professoriate/competitive post-doctoral positions.

Fellowships and Institutional Funding
(2013-14 Academic Year)

| INCOMING STUDENTS | Master’s and Doctoral Diversity Fellowships $3.3 MILLION | Master’s and Doctoral Merit Fellowships $1.5 MILLION | Pathways to the Doctorate Fellowships $173,000+ |
| CURRENT STUDENTS | In 2013-14, OGAPS provided Dissertation Fellowships to 20 students, totaling $274,000+. |
| RECOGNIZING EXCELLENCE | AFS Distinguished Graduate Student Awards for Excellence in Research and Teaching U.S. Senator Phil Gramm Doctoral Fellowships |

DIRECT INSTITUTIONAL SUPPORT PROVIDED TO GRADUATE & PROFESSIONAL STUDENTS

| Salary support for graduate teaching assistants | $21.5 MILLION | Salary support for graduate research assistants | $36 MILLION | Tuition funding for graduate assistants, both teaching and research assistants | $8.9 MILLION |
With more than 100 undergraduate and graduate programs in 14 departments, the College of Agriculture and Life Sciences is one of the largest in the nation. From soil and crop sciences to biochemistry and biophysics, from forensic science to agricultural leadership, our programs are designed to help students change the world.

**GRAND CHALLENGES**

Through our research, teaching and outreach, we are addressing some of society’s grand challenges — feeding our world, protecting our environment, improving our health, enriching our youth and growing our economy.

**INTERNATIONAL EXPERIENCES**

Do you want to study abroad? We lead the university in number of study abroad programs offered. During the 2013-14 academic year, more than 700 students visited 51 countries while participating in international experiences, such as faculty-led study abroad programs, reciprocal exchange programs and transfer credit programs.

**INTERNSHIPS**

Across the college, more than 1,100 undergraduate and graduate students participate in internships each year. The Agricultural and Natural Resources Policy Internship Program, now in its 25th year, prepares 90 students per year to become future policy leaders through internships in Washington, D.C., Austin and Rome, Italy.

**OUTSTANDING FACULTY**

Boasting award-winning faculty in both teaching and research, we are home to a Nobel Laureate, a Pulitzer Prize winner and distinguished professors, as well as more than 400 other honored members.

Home to Texas’ first architectural education program, the Texas A&M College of Architecture comprises almost 2,200 students and 130 faculty in four departments:

- ARCHITECTURE
- LANDSCAPE ARCHITECTURE AND URBAN PLANNING
- CONSTRUCTION SCIENCE
- VISUALIZATION

One of the premier design research institutions in the world, we are home to five centers and two institutes focusing on research supporting creative work, scholarship, learning, teaching and engagement through practice, outreach and service in the built, virtual and natural environments.

We offer an energetic environment for academic and professional success through 15 prominently ranked undergraduate and graduate degree programs, as well as graduate certificate programs in six disciplines.

A pioneer in high-impact learning experiences, we provide problem-based, collaborative learning environments such as design studios and require a mandatory undergraduate semester away in each degree program, satisfied through study abroad or an internship experience.

We are a haven for experimentation. You can embark on a journey of self-discovery, learn how to unlock your creative potential, and become a lifelong learner, thought leader and knowledge creator.

We challenge students to weave aesthetics, visual literacy, health and safety, function, financial feasibility, sustainability and environmental stewardship into the creative process.

UNLOCK YOUR CREATIVE POTENTIAL
“In a hundred years, I would like historians to look back and say, ‘From that school came generation after generation of people who were committed to public service for the right reasons – they believed that public service is noble, and they believed that they could make a difference.’”

George H. W. Bush
41st President of the United States

OUR GOAL
Educating principled leaders for public service
Aspiring leaders in public service launch careers at the Bush School. Through high-impact, innovative classes, you will be provided with the skills you will need to be effective, ethical public servants.

OUR PROMISE
Exceptional experiences and affordable cost
Capstone projects connect students and notable clients from international organizations, federal agencies, state and local governments, and nonprofit organizations. International internships, along with study abroad and language immersion programs, provide opportunities to work and study around the globe. Our students interact with an array of prominent public figures, speakers and visitors in modern classrooms.

We offer an affordable education by providing all in-residence degree students scholarship aid and in-state rates, helping students pursue their dreams of careers in the public arena, doing challenging work in difficult places and making a difference. Online graduate certificate programs are also offered.

OUR COMMITMENT
A solid foundation of theory and practice
Our faculty are a unique, integrated mix of internationally acclaimed scholars and noted diplomats and practitioners who have distinguished careers in public service. Former students are serving in positions of public service leadership around the world, in Washington, D.C., and in local communities throughout Texas. The rigorous curriculum provides the academic knowledge and analytical skills principled leaders need to achieve success.

Mays Business School educates more than 5,900 undergraduate, master’s and doctoral students in accounting, finance, information and operations management, marketing and management.

Mays Business School is dedicated to building ethical leaders for a global society. Our programs nurture and develop students’ leadership skills by providing individualized mentoring and access to successful industry professionals. Students benefit from hands-on learning that takes them out of the classroom and into real-world experiences.

We offer an undergraduate minor in business and several certificate programs in energy accounting, marketing, international business, entrepreneurship, business for non-majors and not-for-profit business. Additionally, we offer six specialized academic programs, a full-time MBA in College Station and professional and executive MBA programs at our CITYCENTRE campus in Houston.

Mays offers access to eight research centers, a career management center, a communication lab and more than 30 business student organizations. We partner with the colleges of architecture and engineering, the Research Valley Partnership and the Vice President for Research to operate business accelerator Startup Aggieland, which helps students from across campus launch businesses.

Mays is accredited by AACSB-International, the premier accrediting agency and service organization for business schools. We consistently rank among the top public business schools in the country for undergraduate and MBA programs and faculty research.

Mays Business School provides the highest level of education for tomorrow’s business leaders.

**Bloomberg Businessweek** ranked the Mays Undergraduate Program 9th among all U.S. public universities in 2014.

**U.S. News & World Report** ranked the Full-Time MBA program 16th among all U.S. public universities in 2015.

High job placement rates for graduates: 85-100% success rate.

RANKED #1
Among colleges and universities in Texas, the college is ranked first for producing the largest number of teachers in the high-need fields of math and science and among the top five in special education and bilingual education.

4TH LARGEST
The College of Education & Human Development is the fourth largest on campus, with more than 6,000 students studying in four academic departments preparing for careers in education, health, sport, business and government.

TRANSFER-FRIENDLY
For students transferring from other disciplines across campus and community colleges, we offer learning communities to support all freshmen and transfer students.

School superintendents rank our doctoral programs 10th nationally out of 260 universities.
The college offers 20 undergraduate programs, 28 master’s programs, 22 doctoral programs, six minors and seven graduate certificates, including conferences and programs for those seeking to continue their education and professional development.
New external funding in 2014 totaled over $18M, including awards from the National Institutes of Health, The National Science Foundation, NASA and the U.S. Department of Education.
The college offers more than 20 faculty-developed international experiences to countries that include Costa Rica, Dominican Republic, England, Germany, Italy, Ireland, Mexico, Spain, Southern Africa, Tanzania and Taiwan.

AGGIE TEACHERS
work in
744 Texas school districts, in all
20 regions and
210 countries.
That’s more than
10,000 former students currently working in Texas public schools as teachers, school counselors, principals and senior administrators.
WHERE TO EAT ON CAMPUS

WHERE AGGIES GO TO GET HEALTHY.

The MedPlus Northgate Clinic provides the quality care College Station is known for, along with some sweet amenities just for you – like Wi-Fi and smartphone charging stations. Not only are we close to campus, but we also take care of things like well woman exams, X-rays and lab work right here. START NOW!

The Career Center helps you reach your destination. Start exploring and planning your future now. Come by 209 Koldus or visit us online at HireAggies.com.
Whether they’re creating skyscrapers, sea vessels or spacecraft, ensuring food, pharmaceutical and environmental safety, or dreaming up out-of-this world technology, engineers are among the nation’s most valuable assets.

The Dwight Look College of Engineering is designing the engineers of the future, consistently ranking among the top 10 public university engineering programs in the nation. Choose from 18 degree programs in 14 departments.

Our students learn by doing, working on projects to solve problems and make a world of difference. Expand your horizons by studying abroad; we offer programs in countries such as Spain, China, Qatar and Brazil. Get involved with a variety of student organizations — more than 50 in engineering alone.

And when it’s time to take what you’ve learned into the real world, you’ll join an elite group of Aggie engineers who make among the highest starting salaries of any Texas A&M graduates with bachelor’s degrees.

Learn by doing. Work on projects to help shape the future.

Engineers make among the highest starting salaries of Aggie graduates with bachelor’s degrees.

We offer study abroad programs in countries such as Spain, China, Qatar and Brazil.

Get involved. Choose from a variety of student organizations — more than 50 in engineering alone.
In 2015, the College of Geosciences celebrates 50 years of scientific excellence in advancing the understanding of Earth systems and preparing future generations of geoscientists. The college welcomes its two newest programs, Geographic Information Science and Technology and a streamlined, five-year program to obtain a B.S. in any of our seven majors and an M.S. in Oceanography.

Despite its small size, the College of Geosciences prides itself on the high-impact learning opportunities available to the approximately 1,300 students, boasting the highest percentage of undergraduate research experience for students university-wide. Additionally, the college has established various partnerships that provide students ample opportunities to gain research and study abroad experience as an undergraduate. First-year seminars for freshmen and transfer students highlight the connection between geosciences and the arts, culture, policy, advocacy and technology.

The College of Geosciences is a science operator for the International Ocean Discovery Program (IODP). Funded by the National Science Foundation, IODP is the largest earth sciences research program in the world. As a science operator, the College of Geosciences has operated the drillship JOIDES Resolution for the past 30 years. Also within the college is the Geochemical and Environmental Research Group, which focuses on applied, interdisciplinary research in the ocean and environmental sciences. Texas Sea Grant, an outreach program headquartered at Texas A&M, works to improve our understanding of the Texas Gulf Coast and to promote better land usage and stewardship.

Students explore the land, atmosphere, oceans, human cultures, and how they are all intertwined.

The college’s 15-story Eller O&M Building, the tallest on campus, is also the rooftop home of the Aggie Doppler weather radar.

Employers value critical thinking skills. Through research opportunities, experiential learning and interaction with distinguished faculty and speakers, students sharpen their ability to analyze and apply information. With a degree from the College of Liberal Arts, you will have the necessary tools not only to thrive in your chosen field, but also to emerge as one of its leaders.

The college offers programs that sent more than 900 students to dozens of countries in 2013-14, providing international experiences to prepare them for our global society. Each year we award more than $300,000 in scholarships to support study abroad adventures that will influence you for a lifetime.

The world needs engaged citizens who are continually learning to help them better understand our expanding global society and participate in solving complex problems.

The College of Liberal Arts prepares students for a lifetime of learning by encouraging the attainment and advancement of knowledge through critical thinking; effective communication and responsible engagement.

Whatever your interests, we have programs that will strengthen and prepare you for a rewarding career or pave the way for graduate study. Choose from more than 45 degree options — from anthropology, sociology and economics to history, communication and psychology.
The College of Science offers 29 degree programs across five departments (Biology, Chemistry, Mathematics, Physics and Astronomy, and Statistics.)

Our faculty provides the required mathematics, statistics and science foundations for all Texas A&M majors, teaching 20 percent (1 in 5) of the total semester credit hours logged campus-wide.

Those faculty include two Nobel Prize winners, three National Academy of Sciences members, six of seven Texas A&M American Academy of Arts and Sciences Fellows, half of Texas A&M’s Distinguished Professors, and a quarter of Texas A&M’s Presidential Professors for Teaching Excellence.

Nearly 70 percent of students in the College of Science received some form of financial aid in the last year.

As one of the state’s most prominent scientific educational resources, the College of Science annually sponsors a wide variety of science and mathematics outreach events that attract thousands of students and visitors to our campus.

The aggieteach Program, among the nation’s largest secondary teacher preparation programs, has helped Texas A&M lead the state of Texas in university-trained mathematics and science teacher production for nearly a decade.

Dedication to the health of humans, animals and the environment is the driving force behind all of the College of Veterinary Medicine & Biomedical Sciences (CVM) discoveries, learning and care. We take pride in our culture of change and innovation in an environment of inclusion.

One of the largest colleges of veterinary medicine in the country and consistently ranked among the top nationally, every qualified member of the 2nd, 3rd and 4th year veterinary classes receives at least one scholarship.

Our Biomedical Sciences (BIMS) undergraduate program is the largest pre-professional program in Texas and our students make up a large percentage of Aggies admitted to Texas medical, dental and veterinary schools. Students at 12 participating community colleges throughout Texas are able to apply and transfer to Texas A&M as BIMS majors.

In the fall of 2016 our new Veterinary & Biomedical Education Complex will open its doors to a state-of-the-art educational facility that will become the cornerstone of our veterinary medical complex. New classrooms and laboratory space in the facility will be outfitted with the latest technological advances and will open a whole new world of innovations in education.

For graduate students, the CVM offers diverse degree options, including doctoral degrees in Biomedical Sciences and Veterinary Pathobiology and master’s degrees in Biomedical Sciences, Science and Technology Journalism, Epidemiology & Public Health, and Laboratory Animal Medicine.

The Veterinary Medical Teaching Hospital teaches students in a real-world clinical setting while providing the community with world-class animal care.

Our award-winning teaching and research faculty are world renowned for creating positive change and are focused on advancing the One Health initiative — the comprehensive health of animals, humans and the environment.
Texas A&M Health Science Center graduates are making a difference in the lives of people around the world. From doctors, nurses and dentists treating patients in need, to public health professionals bringing preventative measures into underserved communities and scientists advancing life-saving discoveries to the marketplace — we are transforming health.

With degrees starting at the undergraduate level in nursing, dental hygiene and public health, then spanning graduate, doctorate and specialized professional programs across the health professions, our graduates are as diverse as the populations they serve.

Our colleges have earned national recognition as leaders in diversity, value and excellence, which is a true testament of our dedication to ensuring that there are no social, economic or geographic barriers that prohibit aspiring health care professionals from receiving an unparalleled educational experience.

Through our partners and outreach initiatives around the world, our students are exposed to international global health experiences that prepare them to become 21st century health care leaders.

Choosing a career in health care means recognizing the importance of service, compassion and innovation in your professional life. Choosing Texas A&M Health Science Center means becoming a part of the Aggie family and embodying a commitment to service, compassion and innovation in all that you do.
Professionalism & Leadership Program
Our groundbreaking Professionalism & Leadership Program provides students with opportunities to build their careers outside the classroom while developing their professional identities. From ethics retreats for first-year students, to communication and public speaking training, these experiences make our program unique.

Paths to Success
Whether resolving clients’ disputes in trial or through mediation, advising agencies as they draft and implement regulations, or helping clients arrange financing or design business strategies, our exceptional teachers create opportunities for students to engage with the transactional and regulatory practice of law as well as litigation.

For example, our law students with an interest in family law participate in National Adoption Day, helping foster children find their “forever homes.” Our students focused on intellectual property provide assistance to College Station campus Startup Aggieland student entrepreneurs on issues including company formation, partnership agreements and trademark selection. Our pro bono service trip to Costa Rica has our students exploring international regulations related to black market wildlife trafficking to assist local nongovernmental organizations. Our business and tax law students can spend a week in the Cayman Islands, exploring legal and policy issues related to the organization and utilization of offshore business entities and learning from local professionals and policymakers.

That’s just the start: With over 17 practice areas providing detailed paths to success, our students discover their passion and then work with our faculty and administrators to choose their individual path toward a rewarding career.
Texas A&M University School of Law integrates a wide range of high-impact learning opportunities with a first-rate classroom legal education, providing students with valuable training for their entire careers as attorneys and their future roles as community leaders.

SIX CORE VALUES ARE AT THE HEART OF WHAT TEXAS A&M IS ALL ABOUT:

EXCELLENCE
INTEGRITY
LEADERSHIP
LOYALTY
RESPECT
SELFLESS SERVICE

TRADITION OF GIVING

The spirit of unity and purpose is evident in the generous support Texas A&M donors make through gifts, large and small. Working in partnership with the fundraising organizations that best suit their objectives — the 12th Man Foundation, The Association of Former Students, the George Bush Foundation and the Texas A&M Foundation — each donor is able to make a difference in the areas they are passionate about.
